EXPERIENCE

TaskGrip — Remote, Czech Republic
Software Engineer — *May 2024 – Present*

- Implemented features from start to finish across all aspects of the web application. Primarily worked with Next.js, Chakra UI and other UI packages, TypeScript, Prisma ORM, and SQL.
- Developing a multi-platform mobile app with React Native in Expo.
- I write clean and maintainable code, versioning it with Git and storing it on GitHub. I collaborate effectively with a team of multiple developers.
- I'm a quick learner and don't need to be led by the hand. I choose a task, research and learn what's needed, then plan, code, test, and submit it to PR.

Parents Business — Remote, Czech Republic
Customer Support — *Feb 2024 – Present*

- I know how to effectively and seamlessly communicate with customers.
- Write personalized emails that make customers feel valued and understood.

McDonald's — Cheb, Czech Republic
Employee — *Summer 2023*

- Help me understand the actual value of earned money.
- How to communicate and handle stressful situations effectively and avoid conflicts with coworkers.
- Leading a kitchen team at McDonald's :-)

EDUCATION

High School — Uherské Hradiště, Czech Republic
Computer Science — *Sept. 2023 – Present*

Primary School — Mariánské Lázně, Czech Republic
Primary School — *Sept. 2014 – June 2023*
